

Swimming Pool Insulation Cover

1. Production Description

Swimming Pool Insulation Cover is a sturdy and stable cover that protects the pool from dirty while non-use. 3mm/7mm cross-linked polyethylene foam faced with blue PE coated fabric, We customized PE foam embossed PE film single side or double side.

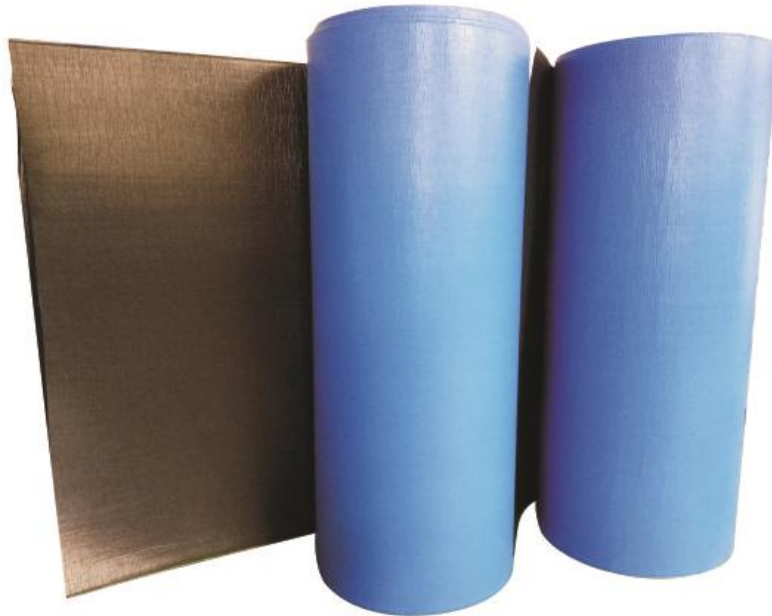

2. Specification Data

Item	Swimming Pool Insulation Cover	
Material	Cross-linked Polyethylene Foam +PE tarpaulin	
Dimension	3mm/7mm*1.7meter*100M	
Lamination Strength	Foam tear	
Tensile Strength	Transverse	10.82 Mpa
	Longitudinal	12.28 Mpa
Thermal Conductivity	0.040W/mk	
Working Temperature	-20 to 32	
UV Resistance	Increase 3% UV protection	

3. Product Features

- Light weight Easy handling and install
- Optimum protection of the pool in the period of non-use
- PE tarpaulin surface is super tough and long life
- UV protection on surface and excellent insulation property
